

When toys talk.

Stories listen.

An object a child already loves becomes the doorway into an original story. Let curiosity arrive before the product.

RECOMMENDED FIRST FRAME

لو لعبته المفضلة بتحكي... شو بتقول؟

Hook B to test: في لعبة بيتكم إلها شخصية؟

Seconds	Visual and action	On-screen line / audio
0-3	Show the plush on its familiar shelf.	لو لعبته بتحكي؟
3-6	A glint and speech ripple make it feel awake.	اليوم دوري!
6-9	The shelf folds into a paper landscape.	اليوم دوري! / تفصيلة صغيرة ← حكاية
9-12	Camera travels a miniature path.	تفصيلة صغيرة ← حكاية
12-16	The landscape becomes an open book.	تفصيلة صغيرة ← حكاية / شو اسم لعبته؟
16-20	Hold the question and return toward frame one.	شو اسم لعبته؟

Remotion and 3D direction

The familiar plush toy wakes; its shelf becomes a paper landscape, then a blank book spread. Keep the toy generic, tactile and gender neutral.

Cover: the toy and the question. Caption opener: “في لعبة بيتكم إلها شخصية وحكاية؟” CTA: name the toy.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

تخيلوا لعبة طفلك المفضلة صحت الصبح وحكت: اليوم دوري أروح معك بالمغامرة. فجأة، إشي صغير من عالمه صار مفتاح حكاية كاملة. هاي من التفاصيل اللي ممكن نبدأ منها قصة مكتوبة خصيصاً إله. شو اسم اللعبة اللي ما بفارقها؟

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

في لعبة بيتكم إلها اسم وشخصية وحكاية؟ اكتبوا اسمها بس، بلا أسماء أطفال أو صور. ممكن أبسط تفصيلة تفتح باب قصة كاملة. #قصتي #قصص_أطفال

ON-SCREEN COPY SCHEDULE

A 00-03	لو لعبته بتحكي؟
B 03-08	اليوم دوري!
C 08-15	تفصيلة صغيرة ← حكاية
D 15-20	شو اسم لعبته؟

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R13 in the existing marketing-reel project as a 20-second, 600-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Open on a close, tactile 3D silhouette of a well-loved plush toy on a cream shelf. Its stitched eye glints; a tiny gold speech ripple appears, then the shelf unfolds into a miniature paper landscape. Camera dollies through the toy-scale world and lands on a blank illustrated book spread. Make the toy generic, original, and gender-neutral. Word-level Arabic typography appears on voiced beats; the final question holds for 2 seconds. Three.js is for the shelf, toy, lighting and camera move; use 2D vector shapes for the landscape so it stays elegant, not game-like. End on the Qissati mark and one question CTA. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Three doors.

One choice.

A tiny decision game designed for comments and replays. Let the viewer choose before any door opens.

RECOMMENDED FIRST FRAME

قدام البطل ثلاثة أبواب. أي واحد يفتح؟

Hook B to test: باب واحد يغيّر الحكاية كلها

Seconds	Visual and action	On-screen line / audio
0–3	Reveal all three doors in one readable frame.	٣ أبواب. اختيار واحد.
3–6	Give the crescent door a clear close-up.	القمر / الضحكة / النور
6–9	Visit the laugh door, then the gold seam.	القمر / الضحكة / النور
9–12	Return to the complete choice.	القمر / الضحكة / النور
12–16	Hold the three options while the question lands.	أي باب؟
16–19	Keep choices visible for comments and loop.	اكتبوا اختياركم

Remotion and 3D direction

Build three distinct 3D paper doors with crescent, laughter and warm light cues. End on the unresolved trio so the choice remains visible.

Cover: all three labeled doors. Caption opener: “لعبة حكاية سريعة للأهل والأطفال”. CTA: choose one door.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

تخيّلوا بطل قصتنا واقف قدام ثلاثة أبواب: باب عليه قمر، باب وراه ضحكة، وباب طالع من تحته نور ذهبي. كل اختيار يفتح حكاية مختلفة. إنتو شو بتختاروا: القمر، الضحكة، ولا النور؟

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

لعبة حكاية سريعة للأهل والأطفال: اسألوا طفلكم أي باب يفتح، وليش. اكتبوا اختياركم بكلمة واحدة: قمر، ضحكة، أو نور. #قصتي #حكاية

ON-SCREEN COPY SCHEDULE

B 03-12	القمر / الضحكة / النور
C 12-16	أي باب؟
D 16-19	اكتبوا اختياركم

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R14 in the existing marketing-reel project as a 19-second, 570-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Create a miniature theatrical set with three original 3D doors, each with a distinct readable symbol: crescent, abstract laugh lines, warm gold seam. Start with an overhead camera drop into the set, then three rhythmic 0.6-second close-ups; avoid opening the doors until the end. Let a soft glow leak from all three, freeze on the unresolved choice, and loop cleanly back to the opening overhead frame. Use frame-driven Three.js camera and light animation, subtle paper grain, deep teal shadow and warm cream typography. Add the three Arabic options as whole words beneath the doors and keep them inside the safe area. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

19 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

17–18	Hold answer options	Music tail	D holds
18–19	Match camera to first frame	Music tail	D holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

A small thing.

A whole adventure.

A rain boot, stone or key can carry meaning when it belongs to a child's world. The reel turns that insight into a visual reveal.

RECOMMENDED FIRST FRAME

ليش هاي الجزمة الصغيرة مهمة بالقصة؟

Hook B to test: أحياناً البطل يبدأ من غرض صغير

Seconds	Visual and action	On-screen line / audio
0–3	Introduce the rain boot at macro scale.	مش كل مغامرة بتبدأ بتنين
3–6	Its shadow becomes a puddle; the stone arrives.	جزمة / حجر / مفتاح
6–10	The stone becomes a hill and the key appears.	جزمة / حجر / مفتاح
10–14	Let the three shadows overlap on paper.	التفصيلة بتصير مشهد
14–18	Fold the objects into a book silhouette.	التفصيلة بتصير مشهد / شو غرضه المفضل؟
18–21	Hold the question and soft order cue.	شو غرضه المفضل؟

Remotion and 3D direction

Show three original 3D objects on a clean plinth. Each shadow becomes a tiny paper scene before the objects resolve into a book shape.

Cover: the three objects. Caption opener: “إشي صغير عنده حكاية كبيرة عندكم؟” CTA: share or visit the order link.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

مش دائماً المغامرة بتبدأ بتنين. مرات بتبدأ بجزمة مطر صغيرة، أو حجر احتفظ فيه الطفل، أو مفتاح بسأل عنه كل يوم. لما التفصيلة إلها معنى عنده، بصير إلها مكان بالحكاية. شو الغرض اللي بذكركم بطفلكم؟

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

إشي صغير عنده حكاية كبيرة عندكم؟ شاركوا الريل مع حدا بيعرف تماماً أي غرض تقصدوا. وإذا حابين قصة مبنية على تفاصيل طفلكم، رابط الطلب بالبايو. #قصتي #ذكريات_الطفولة

ON-SCREEN COPY SCHEDULE

A 00-03	مش كل مغامرة بتبدأ بتنين
B 03-10	جزمة / حجر / مفتاح
C 10-17	التفصيلة بتصير مشهد
D 17-21	شو غرضه المفضل؟

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R15 in the existing marketing-reel project as a 21-second, 630-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Stage three objects on an elegant 3D museum plinth: a rain boot, a smooth stone and a brass key. With each voiceover noun, rotate the camera to one object and let its shadow morph into a tiny story vignette: puddle, mountain, doorway. The morph may be a composited SVG mask; do not use a particle explosion or generic template transitions. Finish with all three objects orbiting into the outline of an open book, then a restrained Qissati end card. The objects are conceptual examples, not product photographs. Use precise soft shadows, shallow depth of field and tasteful sound accents synchronized to the three reveals. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

21 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

Sec	Visual and movement	Spoken words	On-screen / sound

20–21	Reset object stage	Music tail	D holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

A city below.

A world within.

Amman becomes a child-scale imaginary map. The visual makes a familiar place feel newly discoverable.

RECOMMENDED FIRST FRAME

كيف بتبين عمّان من عيون طفل؟

Hook B to test: مدينة كاملة ممكن تصوير مغامرة

Seconds	Visual and action	On-screen line / audio
0–3	Establish stylized Amman from above.	عمّان من عيون طفل
3–6	Descend to the height of a child.	درج ← كنز / شجرة ← قلعة
6–10	Stretch stairs into a treasure path.	درج ← كنز / شجرة ← قلعة
10–14	Let a tree become a paper castle.	درج ← كنز / شجرة ← قلعة
14–18	Dissolve the city into a book motif.	درج ← كنز / شجرة ← قلعة / أي مكان بقصته؟
18–22	Hold the public-place question and loop.	أي مكان بقصته؟

Remotion and 3D direction

Use a stylized original Amman hillside, not a map or a photoreal landmark. Descend to child-eye height; stairs become a path and a tree becomes a paper castle.

Cover: the hill and the question. Caption opener: "عمّان مليانة أماكن صغيرة". CTA: name a public place.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

من فوق، عمّان شوارع وبيوت. بس من عيون طفل؟ درج طويل بصير طريق كنز، وشجرة الحارة بتصير قلعة، وضو الشباك بصير إشارة لبداية المغامرة. تخيلوا مدينتكم مرسومة على مقاس خياله. أي مكان فيها بتحبّوا يدخل قصته؟

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

عمّان مليانة أماكن صغيرة بتصير كبيرة بخيال الأطفال. أي مكان بتذكروا معه لحظة حلوة؟ اكتبوا باسم المكان، من غير عنوان بيت أو مدرسة. #عمّان #قصتي

ON-SCREEN COPY SCHEDULE

A 00-03	عمّان من عيون طفل
B 03-15	درج ← كنز / شجرة ← قلعة
C 15-22	أي مكان بقصته؟

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R16 in the existing marketing-reel project as a 22-second, 660-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Build an original stylized 3D Amman hillside with warm stone blocks and stairs, no photoreal landmarks or copyrighted maps. Camera begins high and descends to child-eye level; at the drop, the staircase becomes a treasure path and a tree silhouette becomes a paper castle. Keep the transformation magical yet believable through match cuts, light shifts and layered paper textures. Use original SVG motifs for the castle and treasure trail. Finish on a blank book page containing only a simple illustrated city motif, not a claimed finished customer story. Text should remain legible over moving scenery, with a 2-second final question hold. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

22 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

One bedtime question.

A thousand places.

A useful question parents can save for tonight. The Reel should slow down enough for the full question to be read.

RECOMMENDED FIRST FRAME

جربوا هالسؤال الليلة قبل النوم

Hook B to test: سؤال واحد يفتح حكاية

Seconds	Visual and action	On-screen line / audio
0–3	Establish a quiet room and moonlit wall.	سؤال الليلة
3–6	Draw the secret door and approach it.	لو في باب سري بغرفتك... وين بوڊيك؟
6–9	Crack the door to a paper-star world.	لو في باب سري بغرفتك... وين بوڊيك؟
9–12	Give the question unhurried reading time.	لو في باب سري بغرفتك... وين بوڊيك؟ / احفظوا السؤال
12–16	Bring in a restrained save bookmark.	احفظوا السؤال
16–18	Hold the save cue as the door closes.	احفظوا السؤال

Remotion and 3D direction

Create a quiet generic room and a narrow 3D secret door. Open it onto a restrained paper-star world; hold the question without visual clutter.

Cover: the glowing door. Caption opener: "سؤال بسيط لوقت الحكاية". CTA: save it.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

قبل ما تطفّوا الضوء، جرّبوا تسألوا طفلكم: لو في باب سري بغرفتك، وين بوّديك؟ اسمعوا الجواب من غير ما تصحّحوه. يمكن يطلع منه عالم كامل. احفظوا السؤال لليلة اللي بدكم فيها حكاية جديدة.

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

سؤال بسيط لوقت الحكاية: «لو في باب سري بغرفتك، وين بوّديك؟» خلي الطفل يكمل الفكرة بطريقته. احفظوا الريل لوقت النوم القادم. #قصتي #وقت_الحكاية

ON-SCREEN COPY SCHEDULE

A 00-03	سؤال الليلة
B 03-11	لو في باب سري بغرفتك... وين بوّديك؟
C 11-18	احفظوا السؤال

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R17 in the existing marketing-reel project as a 18-second, 540-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Create a quiet room in 3D with a small moonlit door outline on a wall; the room must be generic, without a child or likeness. The door opens into an abstract starry paper world as the question is spoken. Keep movement slow enough for the on-screen Arabic question to be read in one pass. Animate the question by whole phrase, never by glyph. Add a subtle bookmark graphic at the save CTA, then loop the door closing into the first frame. Use soft room tone, a restrained chime and a low licensed/original music bed. This is a useful prompt reel; Qissati branding stays small until the end. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

18 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

ON-SCREEN COPY SCHEDULE

A 00–03	النهاية ١ أو ٢؟
B 03–12	جسر للصديق / طريق للمساعدة
C 12–20	اختاروا النهاية

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R18 in the existing marketing-reel project as a 20-second, 600-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180–900, y 300–1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Use a single 3D paper path that forks into two readable directions. On the left, a gentle bridge toward a small friendly lantern; on the right, a path toward a helper beacon. Avoid depicting a child alone in danger; frame the choice as help and care. Split screen for 2 seconds, then return to the central fork and freeze for choice. Key animation to the VO beats, use gold as the selection light and teal for the world. Add a short 0.4-second rewind flourish that makes the final fork flow back to the opening frame, encouraging a natural replay without a gimmicky forced loop. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

20 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

19–20	Loop back to first path	Music tail	C holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Hear it first.

See it your way.

Three small ticks create two possible worlds. Sound leads, but the Reel still needs a readable silent version.

RECOMMENDED FIRST FRAME

اسمعوا هالصوت... وين بوڊيكم؟

Hook B to test: أحياناً صوت واحد يببدا قصة:

Seconds	Visual and action	On-screen line / audio
0–3	Three ticks create three gold ripples.	تك... تك... تك
3–6	Reveal rain at a window.	مطر؟ خطوات؟
6–9	Match the window shadow into a corridor.	مطر؟ خطوات؟
9–12	Paper footsteps give the second reading.	مطر؟ خطوات؟ / إنت شو شايف؟
12–16	Hold both interpretations with the question.	إنت شو شايف؟
16–19	Let the last ripple return to the first.	إنت شو شايف؟

Remotion and 3D direction

Start with three gold ripples on deep teal. Match-cut rain on a window into footsteps on a paper corridor and never resolve which interpretation is right.

Cover: a gold ripple. Caption opener: “شغلوا الصوت واسألوا طفلكم”. CTA: save the listening game.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

ON-SCREEN COPY SCHEDULE

A 00-03	تك... تك... تك
B 03-11	مطر؟ خطوات؟
C 11-19	إنت شو شايف؟

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R19 in the existing marketing-reel project as a 19-second, 570-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Lead with three original, precisely spaced ticking sound effects over a nearly black deep-teal frame. Each tick creates a 3D gold ripple; the ripples first reveal rain on a window, then match-cut into footsteps on a paper corridor. Keep both interpretations equally plausible until the question appears. The soundtrack is designed around sound, so duck music under the ticks and provide meaningful on-screen text for silent viewing. Camera moves are small, cinematic and frame-deterministic. No stock footage, no famous sound sample, and no claims about an actual customer story. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

18–19	Loop ripple to first tick	Music tail	C holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Three words.

A new world.

A simple community game with a precise input: place, object and feeling. The final frame is a template viewers can pause.

RECOMMENDED FIRST FRAME

عطونا ٣ كلمات، نفتح فيهم حكاية

Hook B to test: ٣ كلمات بس

Seconds	Visual and action	On-screen line / audio
0–3	Land three blank tiles on a table.	٣ كلمات = بداية حكاية
3–6	Type place, object and feeling.	مكان + غرض + شعور
6–9	Reveal the example words on each tile.	مكان + غرض + شعور
9–12	Slide the tiles into a doorway.	مكان + غرض + شعور
12–16	Clear the example for three blank slots.	اكتبوا ٣ كلمات
16–20	Hold the comment template for a pause.	اكتبوا ٣ كلمات

Remotion and 3D direction

Use three dimensional paper tiles on a cream tabletop. Land one tile on each noun, slide them into a doorway, then hold three empty slots.

Cover: three blank slots. Caption opener: "اللعبة: مكان + غرض + شعور". CTA: comment general words only.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

خَلِّينَا نَلْعَب: اختاروا مكان، غرض، وشعور. مثلاً: حديقة، مفتاح، فضول. من هالثلاث كلمات ممكن يبدأ مشهد ما خطر ببالنا. إنتو أي ثلاث كلمات بتختاروا؟ اكتبوا كلمات عامة بالتعليقات، بلا تفاصيل شخصية.

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

C 12-20	اكتبوا ٣ كلمات

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R20 in the existing marketing-reel project as a 20-second, 600-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Build a kinetic but refined typography piece. Three 3D paper tiles labeled **مكان، غرض، شعور** enter one by one and land on a cream tabletop. The example words appear on the tiles, then the tiles slide into a simple illustrated doorway. Use Three.js for card depth, tabletop shadow and a macro camera move; use DOM/SVG for Arabic text to preserve shaping. Each tile landing has a gentle original sound cue. The final frame is a clear fill-in template with three empty slots; hold it for at least 3 seconds so viewers can pause and answer. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

20 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

19–20	Hold for pause or screenshot	Music tail	C holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Two voices.

One story.

A saveable reading idea that gives the child a role. Keep the visual warm and instructional rather than sales heavy.

RECOMMENDED FIRST FRAME

جربوا تقرأوا المشهد بصوتين

Hook B to test: طريقة بسيطة تخلي القراءة لعبة

Seconds	Visual and action	On-screen line / audio
0–3	Open a book and reveal narrator ribbon.	جربوا صوتين
3–6	Introduce a second gold character ribbon.	الراوي: أنت / الشخصية: الطفل
6–10	Alternate the two visual voices.	الراوي: أنت / الشخصية: الطفل
10–14	Bring ribbons closer across the spine.	الراوي: أنت / الشخصية: الطفل
14–18	Join them over the open page.	الراوي: أنت / الشخصية: الطفل / احفظوا الفكرة
18–23	Hold the save bookmark and reset the book.	احفظوا الفكرة

Remotion and 3D direction

Float an open paper book with separate teal and gold audio ribbons. Let them alternate, then join above the book near the save cue.

Cover: the two ribbons. Caption opener: “فكرة للقراءة المشتركة”. CTA: save for the next reading.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

المرّة الجائيّة، اقرأوا الراوي بصوتكم العادي، وخلقوا الطفل يختار صوت شخصية ثانية. مش لازم يكون الأداء مثالي. الفكرة إن الحكاية تصير حوار بينكم. جرّبوا هالطريقة بصفحة واحدة وشوفوا أي صوت رح يختاره.

A 00-03	جرّبوا صوتين
B 03-15	الراوي: أنت / الشخصية: الطفل
C 15-23	احفظوا الفكرة

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R21 in the existing marketing-reel project as a 23-second, 690-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Show a floating open-book silhouette in 3D, with two elegant audio ribbons emerging from opposing pages. One ribbon is deep teal for narrator, the other warm gold for character. Alternate the ribbons with the narration and visualize only the role labels, not a literal speaking child. Avoid equalizer overload; use one clean waveform line per voice. End with the two ribbons joining above the book as the save cue arrives. The scene should feel like a premium editorial animation. Keep all text in vector/HTML layers above the WebGL scene, RTL correct and safely centered. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

22–23	Return to closed book	Music tail	C holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Who directs?

The smallest reader.

A light, relatable observation about children choosing the character voices. Let the small microphone win the spotlight.

RECOMMENDED FIRST FRAME

مين يختار صوت الشخصية عندكم؟

Hook B to test: النقاش اللي بصير بكل قراءة

Seconds	Visual and action	On-screen line / audio
0–3	Open the paper stage on a large microphone.	مين مخرج الأصوات؟
3–6	A smaller microphone interrupts gently.	الكبير؟ الصغير؟
6–9	Shift the spotlight between the two.	الكبير؟ الصغير؟
9–12	Let the small microphone take center.	الكبير؟ الصغير؟
12–16	Reveal the question and share cue.	الكبير؟ الصغير؟ / ابعثوها لشريك القراءة
16–20	Hold the choice, then reset the curtain.	ابعثوها لشريك القراءة

Remotion and 3D direction

Build a paper-cut theater with two microphone shapes and one moving spotlight. Keep the exchange playful, not frantic or cartoonish.

Cover: two microphones. Caption opener: “إذا عندكم حدا بيصح أصوات الشخصيات”. CTA: share with a reading partner.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

في بيوت، اللي بقرأ بيختار كل الأصوات. وفي بيوت، الطفل بوقفك عند كل صفحة: لا، هاي الشخصية صوتها غير! هون بتصير القراءة مشتركة عن جد. مين عندكم مخرج الأصوات: الكبير، ولا الصغير؟

A 00-03	مين مخرج الأصوات؟
B 03-13	الكبير؟ الصغير؟
C 13-20	ابعتوها لشريك القراءة

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R22 in the existing marketing-reel project as a 20-second, 600-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Animate a premium paper-cut theater with two microphone icons, one large and one small, swapping places in a playful but controlled 3D camera orbit. Avoid faces, actors and stock clips. The large microphone starts center stage, then the smaller one gently claims the spotlight on the punch line. Add a tiny curtain ripple and one warm laugh-like percussive accent, no canned laughter. Text appears in two balanced beats, then a share-arrow motif points toward the second microphone. The final frame must land on the same stage layout as the opening for a smooth repeat. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

One strange line.

Read the next.

A mysterious opening line creates a reason to stay until the key appears inside the boot. The question belongs in frame one.

RECOMMENDED FIRST FRAME

إذا كان هذا أول سطر... بتكملوا؟

Hook B to test: أول سطر لازم يفتح باب

Seconds	Visual and action	On-screen line / audio
0–3	Ask the opening question beside the key.	بتكملوا هالقصة؟
3–6	Reveal the strange first sentence.	كان في مفتاح صغير...
6–9	Track faint traces of the key moving.	كان في مفتاح صغير...
9–12	Reveal the key inside a boot silhouette.	كان في مفتاح صغير... / وبعدين شو صار؟
12–16	Hold the surprise and final question.	وبعدين شو صار؟
16–18	Let the key rotate toward the first frame.	وبعدين شو صار؟

Remotion and 3D direction

Reveal a small key on paper, then faint traces of its previous locations. Match-cut to a boot silhouette and hold the reveal before the final question.

Cover: the key and first question. Caption opener: "افتتاحية تخيلية قصيرة". CTA: write the next line.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R23 in the existing marketing-reel project as a 18-second, 540-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180–900, y 300–1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Treat this as an editorial mystery teaser. Begin with a macro 3D key hovering above a cream paper surface, then reveal three faint impressions of where it was yesterday. On the voiceover line “داخل حذائه”, execute one crisp match cut to the key inside a generic child-size boot silhouette. Do not build or claim a completed Qissati book from this fictional opening. Set the first sentence as two word-level text blocks; conceal the second half until the key reveal. Keep the closing question on screen for 3 seconds, while the key rotates back toward the opening position for replay. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.

Pause the page.

Open the talk.

A simple reading habit: stop at one choice and ask what the child would do. Motion should make the pause feel intentional.

RECOMMENDED FIRST FRAME

وقفوا عند الصفحة واسألوا: شو بتعمل مكانه؟

Hook B to test: القراءة مش سباق للنهاية

Seconds	Visual and action	On-screen line / audio
0–3	Turn a page and stop it halfway.	وقفوا عند الصفحة
3–6	Let its shadow form the question.	لو كنت مكان البطل... شو بتعمل؟
6–10	Hold the question and simple fork icon.	لو كنت مكان البطل... شو بتعمل؟
10–14	Keep the book still while the thought lands.	لو كنت مكان البطل... شو بتعمل؟ / احفظوا سؤال القراءة
14–18	Let the page settle and bookmark appear.	احفظوا سؤال القراءة
18–22	Hold the useful cue, then lift the corner.	احفظوا سؤال القراءة

Remotion and 3D direction

Suspend a turning 3D page halfway; let its shadow form a question mark. Settle the page only after the question has had time to land.

Cover: the half-turned page. Caption opener: "سؤال بسيط يفتح نقاش". CTA: save or visit the order link.

Words and build.

The script and caption work with any editor. The Remotion prompt below is optional.

ELEVENLABS VOICEOVER | PASTE EXACTLY

مش لازم نخلص القصة بسرعة. مرات أحلى لحظة لما توقفوا عند موقف وتساءلوا: لو كنت مكان البطل، شو بتعمل؟ حتى لو كان الجواب غريب، خلّوه يكمل فكرته. الصفحة ممكن تصوير بداية حديث، مش بس نهاية مشهد.

INSTAGRAM AND FACEBOOK CAPTION | PASTE EXACTLY

سؤال بسيط يفتح نقاش بعد أي صفحة: «لو كنت مكان البطل، شو بتعمل؟» احفظوا الريل لجلسة القراءة الجاية. وللي حاب قصة مكتوبة لطفله، رابط الطلب بالبايو. #قصتي #نقرأ_سوا

ON-SCREEN COPY SCHEDULE

A 00-03	وقفوا عند الصفحة
B 03-13	لو كنت مكان البطل... شو بتعمل؟
C 13-22	احفظوا سؤال القراءة

OPTIONAL COPY-READY REMOTION PROMPT

Create Qissati-R24 in the existing marketing-reel project as a 22-second, 660-frame 1080×1920 Reel at 30 fps. Keep earlier compositions untouched. Use @remotion/three with the matching Remotion version. Drive Three.js camera, geometry, light and transitions from useCurrentFrame() with deterministic values. Keep essential copy and logo inside x 180-900, y 300-1230. Use Qissati teal, cream and gold; Arabic remains RTL in a DOM/SVG layer with word-level reveals. No new filmed footage or invented family proof. Scene: Start on a close-up 3D book page slowly turning, then pause it exactly halfway as the spoken question begins. The illustration is a newly drawn generic fork-in-the-path icon, not a customer page. A warm gold question mark forms from the page shadow, while the book remains suspended in stillness; this visual pause reinforces the reading advice. Resolve with the page gently settling and a discreet Qissati mark. Animate only the book and light in Three.js; compose Arabic text in a separate DOM layer, phrase by phrase. Keep the visual calm enough to let the viewer read the question. Use the exact Arabic voiceover and text schedule above. Separate voice, music and SFX; align subtitles to the final ElevenLabs WAV. End narration before the final two seconds, keep the CTA readable, and provide a Studio preview plus first, middle and last frame checks.

Every second.

22 one-second cells · 30 frames per cell · On-screen letters refer to the copy schedule on the previous page.

Sec	Visual and movement	Spoken words	On-screen / sound
00–01	Book page begins to turn	مش لازم	A IN: وقفوا عند الصفحة · SFX: page turn
01–02	Camera follows paper edge	نخلص القصة	A holds
02–03	Half-turn reveals fork icon	بسرعة.	A holds
03–04	Page pauses midair	مرات أحلى	B IN: لو كنت مكان البطل... شو بتعمل؟
04–05	Room tone drops softly	لحظة لما	B holds · SFX: music dips
05–06	Question appears phrase one	توقفوا عند	B holds
06–07	Shadow forms question mark	موقف وتسالوا:	B holds
07–08	Question phrase two completes	لو	B holds
08–09	Hold page and question	كنت مكان	B holds
09–10	Gold light moves along edge	البطل، شو	B holds
10–11	Fork illustration remains simple	بتعمل؟ حتى	B holds
11–12	Camera eases back	لو كان	B holds
12–13	Page slowly begins to settle	الجواب	B holds
13–14	Reading-tip line appears	غريب، خلّوه	C IN: احفظوا سؤال القراءة
14–15	Page lands with soft sound	يكمل فكرته.	C holds · SFX: page settle
15–16	Bookmark cue appears	الصفحة ممكن	C holds · SFX: bookmark click
16–17	Qissati mark enters	تصير بداية	C holds
17–18	Hold useful question	حديث،	C holds
18–19	Warm light fades slightly	مش بس	C holds
19–20	Hold reading question	نهاية مشهد.	C holds
20–21	Hold book and Qissati mark	Music tail	C holds
21–22	Page corner rises for loop	Music tail	C holds

TIMING NOTE The one-second words are a planned cadence. Adjust frame cuts to the generated ElevenLabs WAV without dropping words or changing the total length.
